Pathway to Learning 2022

Welcome to Lilydale Primary School's Pathway to Learning Program

On behalf of our School Community, I would like to welcome you to the Pathway to Learning program which has been organised in order to support young kinder students in the development of their Literacy and Numeracy skills. We are very proud of the program we offer and we believe that it provides a good balance of fun and learning in a school setting. We also understand that you may have further questions so please feel free to contact us at anytime at school to organise a chat as to the learning needs of your child. We are looking forward to working with you and your child throughout 2022 so that they are ready to start "Big School" in 2023.

The Aims of Pathway to Learning

At Lilydale Primary School we offer a **Pathway to Learning** program to give all students in our community the chance to improve their Literacy and Numeracy skills before they start School

We aim to:

- Equip your child with the necessary Literacy and Numeracy Skills in order for them to achieve at School
- Build your child's confidence in a school setting
- Establish student/teacher relationships
- Develop friendships
- Have fun whilst learning
- Cater for their individual learning needs

Sport

COMMUNITY INVOLVEMENT

We like to be involved with the community and make good use of all the facilities surrounding our school. We regularly are involved with:

- Lilydale Show
- Events at the Market Place
- Use of local sports Parks/Grounds
- Choir Performances
- ANZAC Day Service
- Involvement with local kindergartens

Music

Robotics

OUR VALUES

We take PRIDE in our values which consist of:

- Perseverance
Respect
Inclusion
Determination
Encouragement

Judo

Japanese

Craft and Visual Arts

Meet the Team!

Joh Maria and Lisa will be working with your child over the course of the year in order to prepare them for school. Joh is our leading teacher who leads Literacy at our school and is also on the leadership team. Maria works with Joh in the Prep area and has over fifteen years experience working in the Prep area. Lisa is an extremely experienced aide who has always enjoyed working with the younger students. Together they have a raft of experience and thoroughly understand the concerns and worries you may have for your child starting school. They are there to support you and your child through this year and on into 2023.

INSTRUCTIONAL MODEL

During the Pathway to Learning Program we will aim to follow our School Instructional model. This model provides guidance to teachers and staff about how a lesson should be structured and the important elements that lead to great teaching. It focuses on ensuring that every student receives the quality instruction that they need to ensure they reach their full potential. This model is based on best practice research that puts the student at the heart of all our work. The structure of a lesson is split into three different sections and the quality of the lesson is influenced by the factors on the right of the diagram.

PATHWAY TO LEARNING PROGRAM

Our **Pathways to Learning** program will consist of structured learning time followed by a school experience.

Structured Learning:

Our structured learning time will focus on various curriculum areas and specific skills to help prepare your child for school. Our experienced Prep Teachers, Mrs Butler and Mrs Orlando will be running these exciting sessions with the assistance of Lisa our teacher aide.

Reading:

Learn about our reading program, different ways to read a book and things you can practise at home to prepare for school. The children will experience a reading session similar to how we run reading with our Prep students.

Writing:

Development of fine motor skills is a fundamental aspect of school. During our writing sessions we will aim to develop fine motor skills through various activities. We will also help your child to recognise and write their own name, expose them to basic concepts of writing and most of all begin the process of embedding a love for writing.

Mathematics:

During number sessions we will use lots of hands on materials to build on counting skills and number recognition. We will teach them some of the games we use with the Prep children to make learning fun and exciting.

Our measurement sessions are bound to be a tonne of fun! We will focus on length and weight during these sessions with lots of hands on experiences. Come and find out how tall or long objects are, or maybe you'd like to compare how heavy two different things are?

School Experiences:

The second half of each session consists of your child participating in a school experience with various teachers from our school.

Science:

Join Mr Ellis as he introduces you to the Science room and all the fun experiments that you can complete

Music:

Brighten up your afternoon with an exciting Music session. Sing some songs and play some instruments

Sport:

Get ready, get active! Let's get outside and build on our gross motor skills and cooperation through some fun sporting activities

Art:

Enjoy a wonderful session in the Art room with our Art teacher Mrs Kennedy. Create a masterpiece to take home and show your family.

Japanese:

Come along and join in a Japanese session with our language teacher Mrs Daire. Play some games and learn some new words.

Library:

Relax as you enjoy some stories and activities in our beautiful library. Mrs Burton will read you some of her favourite stories.

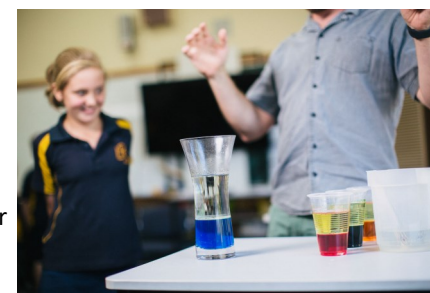

Robotics:

Bring your thinking caps as you explore some of Lilydale Primary School's robots with Mr Weaver. Can you solve the puzzles with your robot?

Judo:

Mrs Matthews is somewhat of a Judo expert having taught this in Lilydale for the last 36 years and having represented Australia. She offers lunchtime clubs to the students at our school. Join her for a session and find out what it's all about.

Library

Stay up to date with our events by subscribing to our Preschool calendar. Simply scan the code below with your phone or tablet.

Educating for the Future*

If you are considering enrolling please find below a list of things to complete

Book in a tour	
Attend Pathways to Learning Program	
Pick up an enrolment package from the school office	
Fill out enrolment forms and return to the school	
Check immunisation schedules	

STARTING SCHOOL

To start Primary School your child will need to turn five years of age by April 30th on the year that they start school. Your child must be at school in the year that they turn six years of age – this is the compulsory school starting age.

A Pathway to Learning Tip Sheet will be sent out weekly to give you ideas and support to allow you to help your child in Mathematics and Literacy
