## Thanks

Just wanted to thank Sandi for her continuing donations of the Just kidding magazines to our school. Sandi has also sourced some prizes for the attendance prize box which our students are bound to enjoy.

## Privacy

One of the great joys in life is sharing photographs with family and friends of your child taking part in a variety of activities from fun family trips to school events and achievements. However, in a school setting we must always be mindful of other students and their families privacy. When taking photos of your child please be mindful and considerate of other people's privacy. We therefore request that parents who photograph, film or record school activities only do so for their own personal use and do not publish the images in any form, including on social media, without the prior consent of persons whose children also appear in the images. Just a reminder that neither the school nor the Department own or control any images of students taken by parents/carers, students or their invited guests at school activities.

## Perseverance

As you are well aware, one of our school values is Perseverance and that was on display at the House Athletics last week. Lots of students kept going even when they were struggling to keep up or had been unsuccessful in their first attempt at one of the field events. This is a fantastic attribute to have when you feel everything is against you, but you keep going. In the 800 metres for example at the beginning of the race Amelie fell to the ground and was left way behind the other students. This would have been enough for me to give up and walk off the track but instead she picked herself up and got back in the race eventually finishing in second position. It makes me very proud to see our students demonstrating the value so wonderfully. Congratulations to all those who competed last week and all those who showed our school values.

## Plants Planted!

Thanks to Ilah, Chase and Beatrice who helped Thomas and myself plant plants behind the basketball court. These are ground cover plants and should provide some wonderful ground cover. Please talk to your child about staying off this garden bed as the plants are small and the soil is rather poor and they will need time to establish themselves. Thanks to Bunnings who provided us with the plants and Thomas, from Bunnings, who came to help and gave the students an understanding of the basic biology of plants.

*Have a great week*
